Fixed Patio Canopy

If you are looking for three season coverage* for your deck or patio the Futureguard fixed patio awning will provide both shade and rain protection for your family, furnishings or restaurant patrons. Choose from hundreds of water resistant acrylic fabrics to accent your home or business. For maximum rain protection a high quality vinyl may be the best choice**. The frame is constructed from durable 14 gauge galvanized steel. The standard 30" roof rafter spacing and fully welded fabric top including the lace bands assures you superior strength and performance. Optional roll down curtains with windows may be added for even more weather protection.

Components

All fittings are made of high quality aluminum or galvanized steel.

Hardware Colors

Galvanized steel. Painted frames available for additional cost.

Fabrics

Available in hundreds of beautiful colors and elegant striped patterns, the 100% acrylic weatherproof fabrics are resistant to fading and mildew.
